DEPARTMENT OF HISTORY

June 25, 1982

Dear Maria Amélia,

I received your good letter in response to my own, and I was deeply moved by it. I shall always cherish the memory of my friendship with Sérgio.

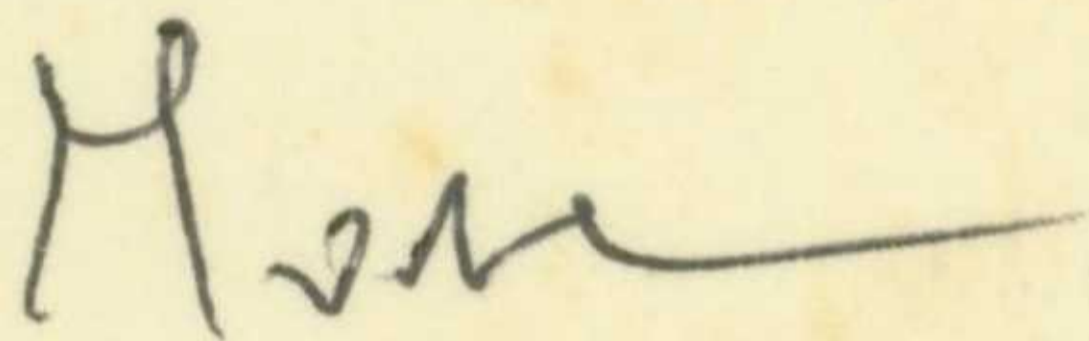

Now the Hispanic American Historical Review has asked me to write a commemorative piece on Sérgio. I believe that I have all the main bio-bibliographical information, as well as the interesting interview with Richard Graham that was published in the same journal.

What I would very much appreciate from you would be a few informal lines about the works that Sérgio was preparing at the end, and what the publication plans are. According to the interview with Graham, he was writing a two-volume study: *O pássaro e a sombra* and *A fronda praetoriana*. This was as of May, 1981. I would much like to tell my readers the state of these manuscripts and any plans for publication. Also the status of any other projects.

As I wrote you, I had hoped to visit São Paulo in early June. Now the conference (run by Bolivar Lamounier and IDESP) has been postponed to ~~xxxx~~ August 31-September 3, and I do plan to attend. I look forward to the chance of paying you a visit.

With warmest wishes to you and all the family, in which Emy joins,

Um forte abraço do

RMMorse
